### SWAN PORTAFORGE REFURBISHMENT PACKAGES

We have found that we are constantly advising customers that they require small sundry parts which add to the Refurbishment Package price.

To avoid this inconvenience we have restructured our prices to include sundry parts up to the value of £20.00

**Remember:** a Portaforge refurbishment - PLUS A THOROUGH SAFETY CHECK - is in your own professional interest for reliability and peace of mind.

In addition, our recommendation of a regular 2 year service is fully endorsed by the FTS Health & Safety Officer.

#### PACKAGE DETAILS:

- Full service and safety check
- Complete reline
- Replacement Ignition system
- Replacement base tiles or castable base
- Replacement thermocouple
- New rubber gasket/s
- Sundry parts (max. £20)
- **PLUS A FREE LOAN PORTAFORGE** for the duration of the refurbishment (subject to delivery and collection costs)

### GET YOUR PORTAFORGE REFURBISHED BETWEEN 1st JUNE AND 30th SEPTEMBER AND YOU COULD WIN A FULL REFUND!!!

Book your forge to be refurbished in between these dates and you will automatically be entered into our lucky prize draw.

The first 3 names to be drawn out of the hat will receive a full refund on the cost of their refurbishment.

This is typically £361.80 (inc. carriage and VAT) based on a standard model portaforge.

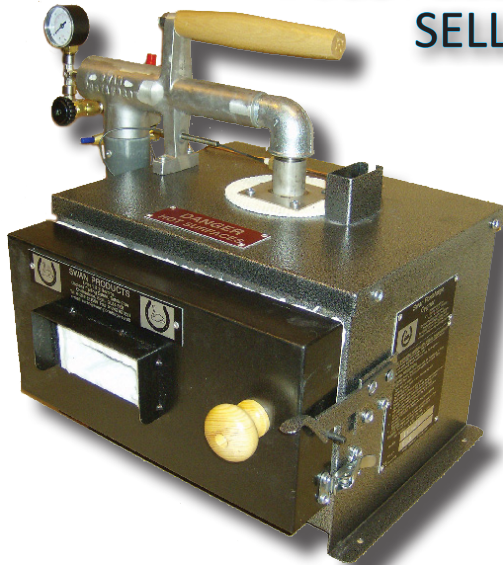

We see many forges sent in for refurbishment that have been left too long. As soon as the lining has worn through heat will get to the forge box and ruin it. This will result in either a new forge being required or costly repairs.

**THE SWAN CYGNET-DELUXE PORTAFORGE  
AT JUST £625(+VAT) WAS OUR BEST  
SELLING MODEL IN 2011.**

It is lightweight, quiet and extremely frugal with gas. We have heard back from some farriers who have exceeded 120 sets on one 19KG gas cylinder using this model. You can also still fit a large strommy shoe (7.5 inches/200mm width) inside the chamber!

**IT'S TIME TO SAVE....GAS AND MONEY!**
